

Georg Rute

Elering's Digitalisation Development Manager and Acting Head of the Smart Grid Unit

Georg Rute is the Digital Development Manager and Acting Head of the Smart Grid Unit at Elering, being responsible for the IT strategy of Elering as well as projects involving data exchange and data access. Before joining Elering in August 2017, he was a co-founder of Sympower, a demand response aggregator active in Finland and the Netherlands. Georg holds a master's degree in Sustainable Energy from Imperial College London.
