

# Riga Aviation Forum 2020

**Fernando Gutiérrez**

*Fernando Gutiérrez Herrero, Aena International, Real State Development manager Graduated in Aerospace Engineering and Bachelor of Research and Market Techniques. Fernando joined Aena in 2005 at the Madrid-Cuatro Vientos Airport after having worked in different companies related to the aeronautical sector such as Air Nostrum, Prointec, and Industria de Turbo Propulsores (ITP Aero). Since 2013 he has been the Head of Real Estate Management belonging to the Commercial, Real Estate, and International Development General Directorate of Aena after having held various positions of responsibility within this General Directorate. Fernando is currently the person in charge of coordinating the Aena Real Estate Developing Plans whose main exponents are the plans of the Adolfo Suarez Madrid-Barajas Airport and the Josep Tarradellas Barcelona-El Prat Airport. In addition to the coordination and direction of the Real Estate Plans, the policies, rents and general procedures for the management of all Aena assets (premises, warehouses, hangars, land, etc.) are established from the Real Estate Management area.*
